การนำ meta slider ไปแสดง

นำ code ในส่วนนี้ ไปแสดง ใน module code

The screenshot displays the MetaSlider v3.14.0 interface. At the top left is the logo and version number. The top right contains a toolbar with icons for 'Add Slide', 'Preview', 'Docs', 'New', 'Duplicate', 'Add CSS', and 'Save'. Below the toolbar is a 'review' window with a 'New Slidesh...' button. The review window shows three 'Image Slide' items, each with a 'General' tab and options for 'Caption' (Media library caption, Media library description, or Enter manually) and 'URL'. To the right of the review window is a settings panel for 'FlexSlider' with options for 'Width' (265 px), 'Height' (471 px), 'Effect' (Fade), 'Arrows' (checked), and 'Navigation' (Hidden, Dots, Thumbnail, Filmstrip). Below the settings panel is a 'Slideshow Theme' section with a 'Select a custom theme' link. At the bottom right is a 'How to Use' section with a 'Toggle title' button and a code block containing the following PHP shortcode:

```
<?php echo do_shortcode(' [metaslider id="432"] '); ?>
```
